

Y6-Sofia and oisin

Sofia as clerk

1. Y5 Tinahse and Nickolas
Y4 Kayden and Louis

Y3 Ethan and Tallulah

Y2 Charlotte and Nickodem

Y1 Toby and George

YR Eden and Fraser

Morpeth school in Northumberland that we are working with voted for the charity for 'clean water' for children in South America. We are we are working with them to collect the Kenco coffee packs to help save people from having to use dirty water.

Our Lady school is looking at litter and thinking of going to St Georges park to look at how much litter there is in the park and write to the council to ask them to clear it up.

Our school is contacting Morpeth 'servant leaders' and Y6 only are writing letters to them .Tinashe part of the eco council and Oisin our chair of the eco council are writing a reply back to Morpeth.

We will have a 'waste assembly' about not wasting things. Mr Hollingdale brought in posters to show the eco council members.

Y4 have measured the temperature of their classroom because their outside door is the most used during playtimes. They are trying to stop the heat loss. We are thinking of doing that for every class including reception.

Mrs Taylor is starting her gardening group in the summer term. We have had the beds dug out and the area ready for this season's crop. Any food grown will be used in the kitchen and eaten. We will be looking at watering plants in our wildlife area if required.
