

# Our Lady Catholic Primary School

Week beginning: 25<sup>th</sup> February 2019

Welcome to our first weekly school blog!

The children have settled straight back into their learning after the half term break. Have a read of some of the great things that have been happening in class this week.

## Reception

On Monday we went on a wellie walk. We walked around the big field and had fun in our wellies. We liked it when the teacher got the biscuits out!

In RE we listened to the Creation story. We lit the candle and thought about God. We played with the animals and wrote about the story. It has been a fun week in Reception.

By Dylan & Rebecca

## Year 1

Year 1 had a very exciting week – They went on their first school trip to Herrings Green Farm in Bedford.

We saw some owls. I loved watching the falcon fly so fast. We saw some barn owls. I liked learning the animal's names and their skills. We had a fantastic day!

By Megan & Norton

## Year 3

In PE Miss Knight has been teaching us how to play tag rugby. We were put in partner and we chased each other to get each others tags. It was great fun.

By Heidi & Patryk

## Year 4

On Thursday we did a fun experiment in science. Mrs Gerrard filled up 6 gloves with water and froze them overnight. In the morning we put the gloves in different places. We put some in the cloakroom, some outside, some on the radiator and some on the window ledge. We then got our science book and wrote a diary about the ice gloves. We recorded what happened to the ice in the glove. We looked at the temperature and how that changed the ice to water and then back again.

In maths we did the bus stop method and a bit of chunking.

Our highlight of the week was the experiment!

By Emily & Gianluca

### Year 5

In our maths lessons this week we have been learning about the bus stop method and fractions. In English we have been learning about Michael Rosen and his poems. In science we have been learning about Neil Armstrong and his life. On Wednesday we learnt about the sun. Did you know, it is us that move (the earth) to make day and night, not the sun?

By Valentina & Dominic

### Year 2

In maths we have been learning about fractions. We learnt about halves, quarters and thirds. It was really easy!!!

We have also been learning the mental health dance with the whole school. We can't wait to perform it to the film crew next week.

By Gianni & Madeleine

### Year 6

In English we learnt about monologues. We wrote our own monologue on the computer in the ICT suite. I really liked writing them because we could choose our own characters to write about in the first person. After we drafted it, we edited it without the auto-correct setting. It was challenging!

By Charlotte & Chinedu

## Guest blog

Before half term we had a Valentine's cake sale. We sold cakes and biscuits to everyone. We raised money for Year 3's chosen charity CRS El Salvador for Oscar Romero and resources for our new lunch club. Thank you to everyone who donated cakes and who came to the cake sale. We raised £154.63!
